Ideas developed fully; logical progression from formation of problem to development of concepts to address the problem or concern. Great paper from the perspective of "order" and "content."	14	Great use of form and style; APA guidelines are basically followed, citations are relevant and appropriate, varied use of resources pertinent to topic at hand. Grammatically wonderful. "Good" Turnitin score/data.	14

Ideas developed somewhat, or tangentially developed. Progression from problem to resolution may have "holes" or be "spotty" in formation. "A bit hard to follow . . ."	10	Form and style are looking a bit ragged; APA style problems, format concerns, grammatical and writing concerns. Marginally "graduate work" at this level. "OK" Turnitin score/data.	10

Less than adequate expression of problem and/or addressing of concern. Marginal expression of ability to tackle graduate level writing pursuit. This is a real problem for graduate study!	6	Hey, this is not working for me; you didn't follow APA, you didn't spell check, you didn't proofread, etc. This is not a proud example of "graduate work" as far as I can tell. "Fair" Turnitin score/data.	6
